

ABSTRACT

PHOSPHOLIPASES, NUCLEIC ACIDS ENCODING THEM
AND METHODS FOR MAKING AND USING THEM

5 The invention provides novel polypeptides having phospholipase activity,
including, e.g., phospholipase A, B, C and D activity, patatin activity, lipid acyl hydrolase
(LAH) activity, nucleic acids encoding them and antibodies that bind to them. Industrial
methods, e.g., oil degumming, and products comprising use of these phospholipases are
also provided.
